

**TECHNICAL DATA SHEET**

# JUNIOR

The OTL Junior kart perfectly complements the OTL Superleggero. It enables you to reach a broader market, representing about 30% of business for many customers. This is why nearly all our clients offer both adult and junior karts. With the Junior kart, you can cater to kids' birthday parties, junior racing leagues, and become a one-stop shop for families.

Safety is critical. The OTL Junior kart has many of the same safety features as our Superleggero and EGK karts.

The minimum height recommendation is 48" tall which typically corresponds to children ages 7-8 years old. Many of the kids use the Junior kart as a stepping stone to the OTL Superleggero creating long lasting customers and memories.
